

# 2021 Program Formulary

The following is a list of the most commonly-prescribed drugs available through the Program. This is an abbreviated list of all prescription medication available through the Program (the "Formulary") and does not represent all drugs available. To determine the availability and price of a drug under the Formulary, please enter the name, dosage, and quantity of the medication in the search tool available on the Program website. Please consult your doctor to determine the appropriate medication for your symptoms and/or medical condition.

**The PROGRAM IS NOT INSURANCE**, but offers purchase price discounts on drugs included in the Formulary. The availability of discounts, the pharmacies at which such discounts are available, the dosages and days-supply to which discounts may apply, and other Program features are subject to change from time to time based on, among other things, participating pharmacies, brand/generic status of a medication, supply limitations, clinical initiatives, and other factors. For specific questions about the Program, please call the number printed on your card and/or coupon, or visit the Program website.
